

HIMS BrailleSense Polaris 32-Cell Braille Notetaker

Setting the New Standard for Braille Notetakers — Effortless Accessibility + Mainstream Apps & Features

BrailleSense Polaris combines industry-leading accessibility along with software that schools, businesses and home users have come to know and love. This powerful device features HIMS' popular, paper-like Braille, a built-in OCR camera, and an upgradeable Android Operating System that supports mainstream apps!

Equal Access for Education, Employment & Enjoyment

For the first time in history, people who are blind have easy access to the same tools-of-the-trade as sighted counterparts without the need to get the IT department involved at all! Surf the web with Google Chrome. Use Polaris Oce with Word, or Google Docs/Sheets/Slides to compose and edit memos, reports and homework assignments.

Collaborate with colleagues by sharing documents on your Google Drive or syncing your calendar to your employer's Google Calendar. And when you get home, enjoy a much-deserved break, reading a book from BookShare, BARD, Audible.com and other popular media distribution services.

About the HIMS BrailleSense Polaris

Price: \$5,795.00
