

IRIE BrailleSheet 120

Braille Embosser

Cut-Sheet Embosser

The IRIE BrailleSheet 120 gives you fast, high-quality braille and tactile graphics at your fingertips! Embossing at 120 CPS this double-sided embosser gives you Library of Congress standard braille, the highest-resolution tactile graphics and allows you to emboss directly from your computer, smartphone or tablet!

The IRIE BrailleSheet 120 also offers the widest variety of media possible. Utilizing a unique individual sheet feeder, users can emboss documents on standard braille paper as well as use mainstream media to create braille labels, double-sided braille business cards and more! Even use 11x17 paper to make foldable braille books, instantly.

Producing custom tactile graphics has never been easier! With 8 different dot heights you can fully customize images to get the most readable tactile graphics. Fill images with different patterns/dot heights to provide more detail or change the dot heights on graphs to make gridlines less prominent and the graph easier to read.
